Finding a Particular Journal/Periodical:

- Some titles are in print/microform, some electronic, some both. How do you know which?

- The online catalog, UFind, will tell you what periodicals/journals the Library holds in print or microform. In the online journal databases, the full-text may be immediately accessible, or a link will be provided to take you to the full text in another system. But if you are not in a particular journal database, to determine if a journal is electronically available in full text/image, follow these steps:

  - from the Library's homepage (http://www.siue.edu/lovejoylibrary/), under the Find section, select “Journals, Magazines, and More,” and then on the next screen, “By Title.”

  - within the “Electronic Journals” search screen, enter the title of the desired journal in the space provided.

  - use the hot link(s) provided to access the appropriate database holding the journal’s full text.
